SUMMARY

Aspiring Junior Software developer with experience in Front-End Development, as well as data structures and algorithms. Looking for an opportunity to continue developing my skills as a programmer and gain on-the-job experience in software development.

EDUCATION

Bachelor of Science: Business Administration, Entrepreneurship   Graduated May 2017
University at SUNY Albany - Albany, New York
GPA: 3.56 (Magna Cum Laude)

Full Stack Web Developer Curriculum - freeCodeCamp (https://www.freecodecamp.org/fcc9c8d9410-662c-4763-8d25-cfcad8928362)

- Completed multiple courses that taught how to use and complete projects using HTML, CSS, Python Javascript and other Front-End libraries for Front-End Development. In addition, I learned and used MongoDB, Mongoose, Express, and NPM for Back-End Development.

PROJECTS

- **Personal Portfolio Website**
  - Link to my portfolio website I designed that contains links to other projects as well. (https://ombailey.github.io/Personal-Portfolio/)
- **Paula's Soul Food Restaurant Website**
  - Link to a website I designed for Paula's Soul food restaurant (https://ombailey.github.io/Paulas-Restaurant-Website)
- **Markdown Previewer (w/ React)**
  - UI that allows user to enter markdown, html, text and more and it will be previewed right on the screen. (https://ob-markdown-previewer.netlify.app/)
- **JavaScript Data Structures and Algorithm Projects**
  - Link to several projects that I completed for my JavaScript certification. (https://github.com/ombailey/JavaScript-Data-Structures-and-Algorithms)
- **Drum Machine (w/React)**
  - UI that allows users to press or click keys that will play different sounds. (https://ob-drum-machine.netlify.app/)
- **JavaScript Calculator**
  - Calculator that users can do simple arithmetic operations. (https://ob-js-calculator.netlify.app/)
- **Pomodoro Timer**
  - Timer that allows users to use the Pomodoro technique for their studies and other activities. (https://ob-pomodoro-timer.netlify.app/)
- **Url-Shortener(Express, Mongoose, MongoDB)**
  - Shortens website url provided and allows users to be redirected t the original website using the short link provided. (https://github.com/ombailey/Url-Shortener-Back-End-Development)
- **Exercise-Tracker (Express, Mongoose, MongoDB)**
  - Tracks users workouts and keeps logs for them. (https://github.com/ombailey/Exercise-Tracker-Back-End-Development)

WORK EXPERIENCE

Manager, Owner 09/2017 - 12/2021
Paula's Soul Food Cafe– Hackensack, NJ and Bronx, NY
• Two family owned restaurants that I had the pleasure of helping to build into a multi-million restaurant in revenue. I had the task of managing the storefronts as well as leading brand identity.

Virtual Engagement Associate (Wealth Management) 10/2020 - 03/2021
Morgan Stanley– Purchase, NY
• Managed Financial Advisors' digital presence via channels such as Social Media and FA Websites. Tasks would include (but not limited to) gaining leads, initial set-up of social media accounts and website, monitoring metrics, and updating / posting new content.

ACHIEVEMENTS

- UAlbany Business Plan Competition Winner - CRD Energy Drink (2017)
- Black History Month Award Recipient for my achievements with Paula's Soul Food Cafe awarded by the local government of Hackensack, NJ. (2019)

SKILLS

- Adobe Photoshop
- HTML5/CSS
- Javascript
- Front-End Development (Bootstrap, Jquery, React, Redux)
- Node.js
- Mongoose, MongoDB, Express, and NPM
- Microsoft Word, PowerPoint, and Excel
- Python (Libraries - Jupyter notebook, Pandas, NumPy, Matplotlib, OpenCV)
- Git and Github
